Kids @ FEMS - microorganisms
When creating the pedagogical concept for Kids @ FEMS 2023, we took into account the reflection of the topic „microorganisms“. Our goal is to use "Kids @ FEMS" – microorganisms" to bring the terms of health, hygiene and research closer to the children and explain in a loving and age-appropriate way. Analogous to our co-constructivist approach to pedagogy, the children to be cared for shape their experiences on the individual day areas based on a wide range of suggestions from the Events4Kidz childcarer.
